Chapter 1 by SuperFolder Ghostbuster

This is a story of a race of men who lived in the country of Cruebia known as the Eapsu. The Eapsu looked like normal human beings, except with one slight difference. They were given different abilities with tails that sprouted from their backside that resembled animal tails. Depending on what tail an eapsu had, they also had an ability based on the tail. For instance, if the Eapsu had a squirrel tail, then it can climb trees.

The eapsu were very cruel to humans and themselves because they take extreme pride for their tails. There was one who was different, because she didn't have pride in her tail. Everyone bullied her about her tail, and she couldn't make friends with humans because she was an eapsu. You might be wondering why everyone was bullying this girl because of her tail. Well, she had a skunk tail, and having a skunk tail meant that no one would want to be her friend because everyone, including herself, feared her powers.

What was this girl's name you might ask? Well, her name is Ariel Clanstar of the Clanstar family. She, and her long lost brother that she never met are the last members of her family. All her life, she was alone. Not even the animals were her friend, which is all she wanted; A friend. Then everything changed when there was a wildfire started by the most unlikely of creatures: a necromancer. And just one question will come to mind for young 16-year-old Ariel: where did it come from?
